Notice to Employers

The formatting of Employer's state I.D. No. in Box 15 on the Federal Form W-2 should be performed as follows:

- The letters NE should appear under the word State and prior to the vertical separator in this box.
- The employer's 7-digit Nebraska Identification Number as displayed on the preidentified Form 941N should appear directly following the vertical separator. This number is always 7 digits and should not include the preceding 21- from the preidentified Form 941N.

The following example should be used as a guide:

				Ska Withholding Read instructions on reverse	side	FORM 941 N

Formatting of this information is important since taxpayers taking part in the Nebraska electronic filing programs will be asked to report the Nebraska identification number. Failure to format the state withholding information correctly may result in the denial of your employees' withholding credit. If you have questions about the correct way to format your Forms W-2 for employees with Nebraska withholding call 1-800-742-7474 (toll free in NE and IA) or 1-402-471-5729. Thank you for your cooperation.
